"The programming announced today reflects a lot of the bigger-picture trends we think will be getting the most buzz in March 2017," said Hugh Forrest, Chief Programming Officer. "These trends include innovation in the transportation space, the rise of artificial intelligence, more emphasis on innovation within healthcare, and an increase in creative industry inclusion. Of course, the biggest trend for SXSW is always the convergence of the technology, music, and film industries, as different people from different sectors gain incredible value by sharing new ideas and new approaches to common challenges."

Every year the SXSW community, conference programming staff, and Conference Advisory Board spend weeks reviewing, analyzing, and deciding which proposals will be featured in the 2017 event program. These sessions represent the most innovative, forward-thinking, and inspiring topics from more than 4,300 proposals received this year via SXSW PanelPicker®. The first 700 announced sessions can be found at SXSW.com, with details of three Featured Sessions below. Additional Keynotes, Featured Speakers, and Conference sessions will be announced in the coming months.

SXSW's next registration deadline is October 21, 2016, at 11:59pm PT. Early registrants benefit from discounted rates and better hotel options. New for 2017, the Interactive, Film, and Music badges will now include expanded access to more of the SXSW Conference & Festivals experience. Attendees will still receive primary entry to programming associated with their badge type but now also enjoy secondary access to most other SXSW events.
